--	---

In full and final settlement of the above-referenced Scope of Negotiations Petition, the parties hereby agree as follows:

1. An officer excused from mandatory overtime due to non-work related injury/restriction shall continue not to have such time charged against his or her FMLA leave entitlement unless the officer voluntarily elects to do so.

2. The grievance giving rise to the within Scope of Negotiations Petition is moot. As such, the FOP hereby withdraws the underlying grievance, FOP 02-09-0002. However, the FOP does not waive any legal argument that the charge of such FMLA leave entitlement is inconsistent with applicable regulations and/or law and reserves the right to challenge such in the appropriate forum if necessary.

3. The County hereby withdraws the above-referenced Scope of Negotiations Petition. However, the County hereby reserves any and all defenses and counterclaims that may be applicable in any future proceedings.
